El Centro, CA 92243-9507

This notification is informational only. California regulations require a farmer to provide annual notification of the pesticides expected to be applied to agricultural crops within ¼ mile of a public K-12 school or a licensed child care center (schoolsites). This notification pertains to the farmer given below. The annual notification was previously provided and included a list of pesticides expected to be used during the July 1, 2022 - June 30, 2023 period. This is an amendment to the notification to add a site and associated pesticides and/or add additional pesticides to those previously listed. There are no other changes to the previous notification. Please contact the county agricultural commissioner if the schoolsite information is incorrect.

Pesticide application restrictions will apply Monday through Friday, during the hours of 6:00 a.m. to 6:00 p.m., depending on the distance from the treated area to a schoolsite, the application equipment used, and type of pesticide applied. During these time periods, the operator of the property and the applicator shall assure that an application is not made within the distance of the schoolsite as required.

List of Active Ingredient(s)

Active Ingredient	Example Product	Reg. Number
Methylated vegetable oil, methylated silicone, ethoxylated nonylphenol	INVADE RST	89391-50003-AA

The pesticides listed are expected to be used no sooner than 48 hours after this notification is provided and no later than the end of the July 1, 2022 - June 30, 2023 period.

Information about the pesticides listed in this notification is available from the National Pesticide Information Center website: <http://npic.orst.edu/>

Negotiation alternative

California regulations include an option for a written agreement between the farmer, the principal or child care center administrator, and the county agricultural commissioner that specifies alternative application restrictions that the parties agree provide the same or a greater level of protection as provided by the prohibitions described above. For example, the three parties may establish alternative restrictions to address extracurricular activities that occur during evenings or weekends. A request to discuss alternative restrictions must be sent to the county agricultural commissioner.
